

Lidia Ochoa

UX / Product Designer · Accessibility & Inclusive Design

Summary

UX & Product Designer specializing in accessibility and inclusive design. Seven years as an educator and assistive-technology practitioner built my foundation in understanding diverse users and designing for access. I turn deep user research into WCAG 2.2 AA-conformant products — and I ship, from AAC apps to design systems. Native Spanish speaker, adept at cross-cultural research; seeking a team focused on human-centered product design.

Featured Projects

Lead UX Research & Design · uxbylidiaochoa.com

ComBoard — Eye-Gaze AAC App

2024

- Designed a custom AAC (augmentative & alternative communication) app for a non-speaking student with cerebral palsy — now published on the App Store.
- Drove a **9.8× increase in communication usage** over her prior tools (ETRAN, Tobii) by co-designing a cluster-based eye-gaze keyboard; earned a 5/5 user rating.
- Led end-to-end UX research (contextual inquiry, competitive AAC analysis, eye-gaze empathy interviews) and hand-built a WCAG 2.2 AA-aligned, minimal-motion design system in Figma; AI-augmented the build (Figma Make + Claude) to ship on iOS, keeping research and the core interaction model human.

UX Research Inclusive Design Design System Prototyping

BudgetApp — Accessible Budgeting

2025

- Designed an accessible budgeting app for novice, visually impaired users, with an intuitive flow that lets users build a budget in under 3 minutes.
- Ran a usability study (n=10): **100% task success, 90 satisfaction score**; two iteration rounds raised task success from 70% to 90%.
- Built a WCAG 2.2 AA-conformant design system in Figma with clear hierarchy and adaptive prototypes; defined priorities via information architecture, journey mapping, and personas.

Usability Testing Design System Accessibility (WCAG 2.2 AA) IA

Our Light UnBound — Brand & Exhibition Design

2024–26

- Co-curated a 4Culture-funded community art exhibition (1,000+ opening-night visitors); designed and built its accessible exhibition website.
- Produced a cohesive promotional campaign across print and digital formats within one brand system.

Brand & Campaign Web Accessibility

Experience

Educator

Apr 2024 – Present

Brock's Academy — Woodinville & Seattle, WA

- Provide 1-on-1 instruction across private-school, tutoring, and NPA (nonpublic agency) settings to students ages 6–adult, including neurodivergent students and students with complex learning needs.
- Supported a non-speaking 12th-grader with cerebral palsy for a year — designed and deployed the ComBoard eye-gaze AAC system (see Projects); the student held a 3.4 GPA and earned Senior Mathematics Recognition (2025).
- Since Fall 2025, teach as an NPA educator supporting autistic students, applying Collaborative Problem Solving (CPS) and 2E strategies; raised one student's ACT composite from 28 to 34.

Mathematics Teacher & Department Lead

Aug 2021 – Dec 2023

Bob Hope School — Port Arthur, TX

- Led a 5-teacher department; as the school's sole Algebra I teacher, deployed data-driven curricula that lifted the school-wide Algebra I EOC pass rate by 140%.
- Awarded Rookie Teacher of the Year (2022) for project-based assessments and ed-tech integration (Khan Academy, GeoGebra, Desmos).
- Adapted instruction for diverse learners, including English-language and Spanish-only students, building bilingual supports into lessons.

Earlier Roles

Educator — Heights High School (2020–2021) · North Colleges Editor — Rice Undergraduate Yearbook (2018–2019)
· Teaching Fellow — Breakthrough Houston (Summers 2018–2019)
