

Lidia Ochoa

UX/Product Designer

About Me

UX designer and accessibility advocate turning deep user research into inclusive, WCAG-compliant products. 7 years as an educator, tutor, and assistive-tech specialist built my foundation in understanding diverse users and designing for access. Native Spanish speaker, adept at cross-cultural research, seeking a team focused on human-centered product design.

Featured Projects

Lead UX Research & Design

BudgetApp

02/2025 – 06/2025

- Designed an accessible budgeting app for novice budgeters, achieving <3 min budget-creation flow with 100% task success (n=10) and 90 user satisfaction score.
- Conducted 4 user interviews + competitive audit; iterated through two usability rounds, raising task success from 70% to 90%.
- Built WCAG 2.2 AAA-compliant design system in Figma with adaptive prototypes, simplified flow, and clear visual hierarchy.
- Defined feature priorities through information architecture, journey mapping, and personas.

User Research Wireframing Prototyping Usability Testing WCAG 2.2 Responsive Design

ComBoard — ETRAN-Inspired Digital Keyboard

04/2024 – 10/2024

- Drove 9.8x usage increase and 5/5 user rating by co-designing a cluster-based eye-gaze keyboard for a non-speaking student with cerebral palsy.
- Performed recurring empathy interviews via eye-gaze selections; designed minimal-motion UI that reduced cognitive fatigue.
- Developed inclusive design system and responsive UI components aligned with WCAG 2.2 for diverse accessibility needs.
- Leveraged affinity mapping and journey mapping of interaction data to refine prototypes across iterative cycles.

Professional Experience

Private School Teacher & Tutor

04/2024 – Present

Brock's Academy — Seattle, WA

- Provided 1-on-1 instruction to 20+ students with unique learning needs (ages 6–adult) across Algebra II, Geometry, ACT prep, Spanish, Civics, drawing, calculus, physics, chemistry, and early math and ELA skills.
- Raised ACT composite from 28 to 34; turned two failing grades into B averages within one semester.
- Adapted methods for neurodivergent and Spanish-only learners; iterated materials via learner feedback using persona-like profiles and affinity mapping of error patterns.

Full-Time In-School Assistive Tech Aide

04/2024 – 06/2025

Brock's Academy — Seattle, WA

- Supported 12th-grader with cerebral palsy in maintaining 3.4 GPA across Calculus II, Neuroscience, Art & more.
- Designed ComBoard eye-gaze communication board in Figma; boosted spontaneous essay length by several sentences per paper.
- Applied educational journey mapping to align assistive technology workflows with student learning objectives.
- Student earned Senior Mathematics Recognition 2025.

Mathematics Teacher & Department Lead

08/2021 – 12/2023

Bob Hope High School — Port Arthur, TX

- Led 5-teacher department; deployed data-driven curricula that lifted Algebra I EOC pass rate by 140%.
- Awarded Rookie Teacher of the Year 2022 for project-based assessments and ed-tech integration (Khan Academy, GeoGebra, Desmos).
- Structured lesson planning with information architecture principles, organizing complex content into modular, reusable flows.

Earlier Roles

Heights High School — Educator (08/2020 – 05/2021)

Rice Undergraduate Yearbook — North Colleges Editor (08/2018 – 06/2019)

Breakthrough Houston — Educator (06/2018 – 08/2019)
